I have a Dream...
Just in the not-so-distant future...

Structural Engineers are broadly recognized and admired by the public for saving lives, protecting property, preserving the past, and creating a sustainable future.

An event honoring all Structural Engineers

Sponsored by COMPUTERS & STRUCTURES, INC.

Seminar Presentation: “Structural Engineering is Indispensable to Civilization. So Why Don’t We Make More Money? ”
11:15 am – New York Academy of Sciences

In this talk, Ashraf will explore this perplexing question and offer some surprising answers. He’ll then present a roadmap for implementing effective solutions immediately. This is a presentation that will change your perspective—forever—on everything you thought you knew about our noble profession!

After-Party: A Celebration of Structural Engineering
6 pm to 10 pm - Downtown NYC (Location TBA)

Following the Full Day Seminar, join us for an unforgettable evening hosted by Ashraf Habibullah to celebrate the invaluable contributions of the structural engineering profession to humanity. Dinner will be served, and don’t forget your dancing shoes! The Ashraf All-Stars will play your favorite hits from the 80s, 90s, and beyond. Cocktail attire recommended.

After-party open to all seminar registrants and their guests. Student tickets available.
